**Star Wars: Galaxy’s Edge:** Most of Star Wars: Galaxy’s Edge opened on August 29, 2019, including the Millennium Falcon: Smugglers Run simulator ride, Oga’s Cantina lounge, Docking Bay 7 Food and Cargo quick service, Ronto Roasters meat stall, Milk Stand takeaway bar, Kat Saka’s Kettle popcorn stand, Savi’s Workshop lightsaber customization experience, Droid Depot assembly experience, and a host of small shops. The second ride, Star Wars: Rise of the Resistance, is slated for a December 5, 2019 opening.

Neither Smugglers Run nor Rise of the Resistance will initially offer FastPass+, though one or both attractions will likely add the service at some point in the future. Fortunately, Oga’s Cantina, Savi’s Workshop, and the Droid Depot do offer reservations. This makes touring the new land much easier as it won’t be necessary to visit any of these locations early in the day to secure spots. Fewer than 50 people are able to build a lightsaber per hour at Savi’s Workshop, and Oga’s Cantina has room for fewer than 250 people. Smugglers Run, on the other hand, moves through about 1,500 riders per hour – a much higher capacity. During the first couple months of operation, the average wait for Smugglers Run has been about an hour.

Touring strategies will change once Rise of the Resistance opens. Rise is expected to be a much grander ride than Smugglers Run, which means most people will likely head to it first. This may create a situation similar to Pandora at Animal Kingdom, where nearly everyone rides Flight of Passage first, and then visits Na’vi River Journey immediately after. This makes it possible for those who arrive early enough to ride both attractions with relatively short waits first thing in the morning. The fact that FastPass+ will not be offered means standby waits will be shorter as nearly 100% of each ride’s capacity will be based on a first-come, first-served basis.

**Extra, Extra Magic Hours:** From September 1 through November 2, 2019, Hollywood Studios offers morning Extra Magic Hours exclusively to those who are eligible from 6am to 9am. Smugglers Run and the rest of Galaxy’s Edge are open, in addition to the Toy Story Land attractions, Rock ‘n’ Roller Coaster, and Tower of Terror. Eligible guests able to arrive by 5:30am will find a tremendous amount of success in the early hours as relatively few people are able to arrive that early and take advantage of the extra time. Consider beginning in Toy Story Land and ride all three attractions there before moving on to Rock ‘n’ Roller Coaster and Tower of Terror. Get in line for Smugglers Run between 8:30am and 9am, when actual waits are routinely just 20 to 30 minutes.

For those ineligible or unable to arrive early, the late night is the least crowded time to visit Galaxy’s Edge with the best time to get in line for Smugglers Run just a few minutes before the park is scheduled to close. Actual waits then are 30 to 45 minutes.

**Beginning November 3rd:** It looks like the Studios will move to regular 9am opens most days, with a single, one-hour morning EMH on Sundays from 8am to 9am. Until Rise of the Resistance opens, we expect roughly an even number of people to head to both Slinky Dog Dash and Smugglers Run at rope drop, which should help pull people away from the Toy Story Land priorities first thing. Because of that, we think heading to Toy Story Land first to ride all three priority rides there is smartest. Smugglers Run is best last thing at night or in the early afternoon. The queue is interesting and actual waits will be lower than the morning. Single rider is also an option at Smugglers Run, with actual waits that are typically under 15 minutes. Single riders skip the pre-show and won’t have the opportunity to request one of the three on-ride positions, so we don’t recommend it for a first ride because much of the story will be lost. But it’s a good choice for a second or third ride.
With the opening of Galaxy’s Edge, we also see new FastPass+ Tiers. Here’s the priority:

**Tier 1 (Choose One):**

1. Slinky Dog Dash  
2. Rock ‘n’ Roller Coaster  
3. Tower of Terror  
4. Toy Story Mania  
5. Alien Swirling Saucers

**Tier 2 (Choose Two):**

1. Star Tours  
2. Frozen Sing-Along  
3. Beauty and the Beast Live on Stage  
4. Indiana Jones Epic Stunt Spectacular  
5. Disney Junior Dance Party  
6. Voyage of the Little Mermaid  
7. Fantasmic  
8. Muppet Vision 3D

Guests may initially select only one attraction from Tier 1 in advance. This includes all five of the most popular rides in the park outside of Galaxy’s Edge. The change complicates touring quite a bit, as previously guests were able to book in advance one of the Toy Story Land rides, like Slinky Dog Dash, in addition to both Rock ‘n’ Roller Coaster and Tower of Terror. Now, only one of these high-priority attractions may be selected.

One potential piece of good news is that everyone else is in the same boat and day-of FastPass+ availability is better for priority attractions. At Epcot, the tier system makes it easier to secure Tier 1 attractions as 4\textsuperscript{th} FastPass+ selections because guests may only select one attraction in advance from Tier 1, which includes Frozen Ever After, Soarin’, and Test Track. If people were able to select three of these in advance, then there would be far less availability as most people would pick three priority experiences from the available inventory as soon as they’re able. With most guests at the Studios selecting one of the first three rides from Tier 1 in advance, there is more availability for Toy Story Mania and Alien Swirling Saucers later in the day.

**General Touring Philosophy with a regular 8am or 9am open:** Until Rise of the Resistance opens, most guests arriving for park open will want to begin their day in Toy Story Land with Slinky Dog Dash, Alien Swirling Saucers, and Toy Story Mania. FastPass+ can then be utilized at Rock ‘n’ Roller Coaster. Thrill seekers may elect to begin the day at Rock ‘n’ Roller Coaster, where it’s possible to ride in standby a couple of times there and at Tower of Terror. Then use FastPass+ at a Toy Story Land attraction later in the day. Starting with Rock ‘n’ Roller Coaster is also less stressful than Slinky Dog because far fewer people are headed in that direction. Visit Galaxy’s Edge when it’s convenient, and ideally, get in line for Smugglers Run at the very end of the night. A typical problem is trying to see all of the scheduled shows, most of which take 40 to 60 minutes to experience, in a single day. With one day, you may need to prioritize several of the lengthy shows that appeal to your group while skipping others – there just isn’t enough time.
**Characters:** The Woody and friends meet in Toy Story Land is the highest priority with a 30+ minute wait that develops almost instantaneously after they appear at park open. Try to visit immediately after riding Slinky Dog Dash in the morning or as late in the evening as possible. Other characters in Toy Story Land see 20 minute waits. Mickey and Minnie meet across from Sci-Fi Dine-In to 25 to 40 minutes waits. Mike and Sulley from Monsters, Inc. inside Walt Disney Presents are the next priority with 30-minute waits almost all day. Visit in the last half hour that they’re scheduled to appear, which is usually 6pm. The Star Wars characters in Launch Bay typically see 20- to 30-minute waits. Visit during the heat of the day as it’s inside and air-conditioned. Other priorities include the Disney Junior characters like Doc McStuffins and Fancy Nancy outside Disney Junior, and Olaf sees 15 minute waits across from Star Tours.

**Jedi Training Academy:** Kids between the ages of 4 and 12 have the opportunity to participate in this show held next to Star Tours. To sign them up, bring the participating child to the Adventurers Outpost store to the right of 50’s Prime Time Café before 10:30am. With Toy Story Land and Galaxy’s drawing heavy crowds, few people head to signups first thing, making it easier to head over later in the day. If Jedi Training is an absolute must-do, visit earlier to guarantee spots. There are usually 12 to 15 shows scheduled throughout the day. Ask for a show in the late morning or afternoon so it doesn’t interfere with morning touring and double check the weather as rain cancels shows. Kids participating in Jedi Training are required to return to the sign-up location 30 minutes before the show to practice. Those with pre-opening reservations at the Hollywood & Vine character breakfast may be able to sign their kids up before the meal without a wait, which is an added perk.

**Rope Drop:** The Studios typically lets guests into the park 45 to 75 minutes prior to open, depending on crowds, with the holding area at the end of Hollywood Boulevard. For Rock ‘n’ Roller Coaster or Tower of Terror, keep to the far right. For Toy Story Land, stay center and prepare to head straight and then to the right around Grauman’s Chinese Theater. For Galaxy’s Edge, stay to the left.

Those visiting Slinky Dog Dash or Smugglers Run first should arrive at least an hour before official open and be prepared to hurry to the attraction. Those heading anywhere else, including Rock ‘n’ Roller Coaster or Toy Story Mania, may arrive closer to 30 minutes before open and be just fine.

**FastPass+ Kiosks:**

- Main tip board near the end of Hollywood Boulevard
- To the right of the Muppet Vision 3D entrance
- Tower of Terror’s old FASTPASS machines to the left of the attraction entrance
- Toy Story Land entrance, to the left of the walkway into the land

Experience those two rides and then use the Slinky Dog FP+ if the return time is early enough or return to the land later in the day.

9. Have breakfast, look around Galaxy’s Edge, see shows, and use FastPass+ etc.

Galaxy’s Edge First Thing: Smugglers Run does not currently offer FastPass+, which means virtually all of the ride’s capacity goes to standby riders, which reduces wait times and keeps the line moving. In addition, the capacity is higher than several other rides at the Studios. Most guests will also want to spend some time exploring Galaxy’s Edge and potentially stopping in at Oga’s Cantina, Savi’s Workshop, and the Droid Depot, among other outlets. Because of this, it makes sense to visit the land later in the day, after experiencing attractions in other areas where waits will rise faster, and then stop in Galaxy’s Edge later in the day when you won’t be in a hurry to move to other priorities. The walk back to Smugglers Run first thing in the morning is also long and arduous. You may still opt to ride Smugglers Run at rope drop, but waits will already begin to materialize at other rides by the time you’re done and you’ll likely want to return to Galaxy’s Edge later in the day to look around anyway, reducing any time savings by experiencing the ride before others.

LATE-ARRIVAL TOURING: Use FastPass+ at a Toy Story Land attraction and for two of the attractions from Tier 2 that you would like to experience. Most people will want to select Slinky Dog Dash in advance along with Star Tours and a show. Visit the anytime attractions in the afternoon when crowds are heaviest, prioritizing the shows that run on a set schedule. Visit characters in the last 60 to 90 minutes that they’re scheduled to appear. End the evening with Fantasmic or the Star Wars Fireworks or visit Smugglers Run, Toy Story Mania, Alien Swirling Saucers, and Slinky Dog Dash (in that order) in the final two hours of park operation when waits are shorter. Disney allows guests to enter the queue of any operating ride up to a minute before the parks’ posted closing time. Slinky Dog may still post a 40+ minute wait at the end of the night, but actual waits are routinely under a half hour. You may also elect to ride Smugglers Run last thing, when actual waits are usually under an hour.

Star Wars: A Galaxy Far, Far Away: This show, which takes place on a stage in front of Grauman’s Chinese Theater, is typically scheduled at 10:30am, 11:30am, 12:30pm, 1:30pm, 3:30pm, 4:30pm, 5:30pm. The first show may be scheduled at 11:30am, in which case a show will be scheduled at 6:30pm. To see it, arrive about five minutes before show time and find a spot further back on the far left or right hand sides of the stage. Because the stage is low to the ground, it’s difficult to see over people’s heads from the center. For front row spots, arrive 30 minutes early.
**FANTASMIC:** Hollywood Studios’ longtime nighttime spectacular is scheduled at least once almost every night. During extremely busy times, a second show is scheduled 90 minutes after the start of the first. Shows can start as early as 6:30pm or as late as 10pm. If two shows are scheduled, the second will virtually always be less crowded, especially if it begins at 9pm or later, due to the number of families that opt for the earlier show. If you’re headed to the first or only Fantasmic, plan to arrive 60 to 75 minutes early to secure good seats together or use FP+ and arrive closer to 40 minutes early. For the second show, an arrival 20 minutes early should suffice. Seating is bleacher-style, uncomfortable, and without backs. The best seats are at least half way up as close to the middle as possible. The Fantasmic Dining Package, a fixed price meal at Hollywood Brown Derby, Hollywood & Vine, or Mama Melrose, guarantees a seat for the show along with the meal or full buffet. A Dessert Package with reserved seating is also available. Reserved seating for both is front and center and those using it should arrive at least 20 minutes before show time. FastPass+ has a reserved section next to the Dining Package section. Because the show is so late at night, most guests will want to use their pre-scheduled selections elsewhere and check to see if the show is available as an additional FastPass+ selection later in the day. While Fantasmic FastPass+ may not initially be available, there are thousands of spots available and people consistently cancel. Keep refreshing the app and Fantasmic should show up sooner or later.

**STAR WARS FIREWORKS:** What is now predominantly a projection show on the façade of the Chinese Theater with accompanying fireworks is usually scheduled once per night shortly after sundown. Guests wishing to see the fireworks, which are almost exclusively shot off on the right side of the building, will need to arrive at least 30 minutes prior to the start of the show and position themselves in the Center Stage area about half way between the Chinese Theater and the two tall projection towers near the end of Hollywood Boulevard. There’s typically room to fill in this area. This is the ideal location for both the fireworks and projection shows.

**WONDERFUL WORLD OF ANIMATION:** Similar to the Disney Movie Magic show that preceded it, this 12-minute projection show features scenes from all of Disney and Pixar’s animated movies from the last 90 years projected on the Chinese Theater with a few fireworks at the end. It’s typically scheduled 20 to 30 minutes before the Star Wars fireworks and does a nice job of occupying viewers’ attention until the main event begins.

**FANTASMIC AND STAR WARS FIREWORKS ON THE SAME NIGHT:** With the way the two nighttime shows are usually scheduled, it will be difficult or impossible to see both if only one Fantasmic is scheduled. Disney typically schedules the Star Wars Fireworks 15 or 30 minutes after the first Fantasmic or may even schedule the shows at the same time. If it’s 15 minutes after, that makes it impossible to see both. If it’s 30 minutes after, you’ll have to quickly exit Fantasmic and try to find spots as close to the recommended viewing area as possible. With two Fantasmic shows, see the Star Wars Fireworks first followed by the second Fantasmic.

**JINGLE BELL, JINGLE BAM:** Disney typically offers a holiday-inspired projection show with accompanying fireworks in place of the Star Wars show from the first week in November through the first week in January. In 2019, the show will run from November 8, 2019 to January 5, 2020. The advice on seeing the show is the same as for Star Wars.
